

Addendum to Blackburn and Bos' Gothenburg slides

- After slide 13:

QUESTION 1: Draw a DRS for each of the two readings of the sentence **Vincent did not dance with a woman.**

- After slide 16 (from Malaga2.ppt):

DRS can be viewed as a first-order language without explicit quantifiers:

- After slide 24:

QUESTION 2: Draw the DRS(s) corresponding to the following sentences and explain why the pronoun can or cannot refer back to the intended antecedent. (Partly based on Malaga2.ppt, slides 25-32.)

- (1) Vincent danced with a woman₁. ✓ She₁ was pretty.
- (2) Vincent danced with no woman₁. * She₁ was pretty.
- (3) Vincent did not dance with a woman₁. ___ She₁ was pretty.
- (4) Vincent did not dance with the woman₁. ✓ She₁ was pretty.
- (5) Vincent did not dance with Mia₁. ✓ She₁ was pretty.
- (6) ✓ If a student₁ is-good-at-logic, he₁ does-well-in-semantics.
- (7) ✓ Every student that bought a cat₁ took it₁ to Dr. M.

- After slide 29:

QUESTION 3: Draw the DRSs of the following two sentences, and then do the translation from DRS to FOL applying the procedure sketched in the slides.

- (8) If a man₁ finds a treasure₂, he₁ shows it₂ to every friend of his₁.
- (9) Every woman that found a dog₁ gave it₁ to a boy or a girl.

- After slide 30, if time permits:

Definitions of embedding semantics, book pp. 17-18.
