Ling 316: Conventional Implicatures

SoSe 2012

COURSE DESCRIPTION

This MA/LA seminar investigates conventional implicatures and, more generally, so-called 'expressive meaning', with emphasis on their pragmatic behaviour and on their impact on the syntax-pragmatics and prosody-pragmatics interfaces. Constructions standarly assumed to give rise to conventional implicatures, including discourse particles (e.g. German *ja*, *wohl*), will be investigated from different perspectives and in different languages. Furthermore, we will explore certain constructions that have been argued to carry some expressive meaning component, such as evidentials and slifting (e.g. *May will come*, *I hope*), as well as aspects of the form that convey other non-truth-conditional meaning, such intonational patterns in declarative and interrogative clauses.

INSTRUCTOR: Prof. Maribel Romero (short for María Isabel Romero Sangüesa)

maribel.romero@uni-konstanz.de

G212

Office hours: probably Thursdays 11-12h

COURSE PREREQUISITES

Background on pragmatics at least equivalent to Ling116.

COURSE REQUIREMENTS

- Class presentation of a paper (Referat)
- Short presentation of your term paper (Hausarbeit) as work in progress at the Mini-Conference
- Term paper (Hausarbeit) due shortly after the end of classes

April 24	General Background on Pragmatics
